WonderArk

B2B · SMB OPERATING PLATFORM

One login. Every part of your business. Zero duplicate data.

One login and one data model for a growing business: customer discovery, marketing, fundraising, inventory, field service, a shared inbox and accounting with GST — licensed module by module, never duplicating a customer, an item or an invoice.

Investor overview · Live platform · five modules, paid plans in readiness review

Growth turns into a pile of tools.

1. Growth turns into a pile of tools: five logins, five customer records.
2. Stock counts disagree with what a field crew actually used.
3. GST returns are re-keyed from sales data that already exists elsewhere.
4. Every integration is an export, an import and a person with a spreadsheet.

One portal. One account. Five modules. One truth.

01

Discovery, Marketing & Funding

AI finds and scores customers, plans campaigns and runs the investor pipeline.

02

Inventory & Service

Stock, orders, jobs, crews and field work on one record of the truth.

03

CRM

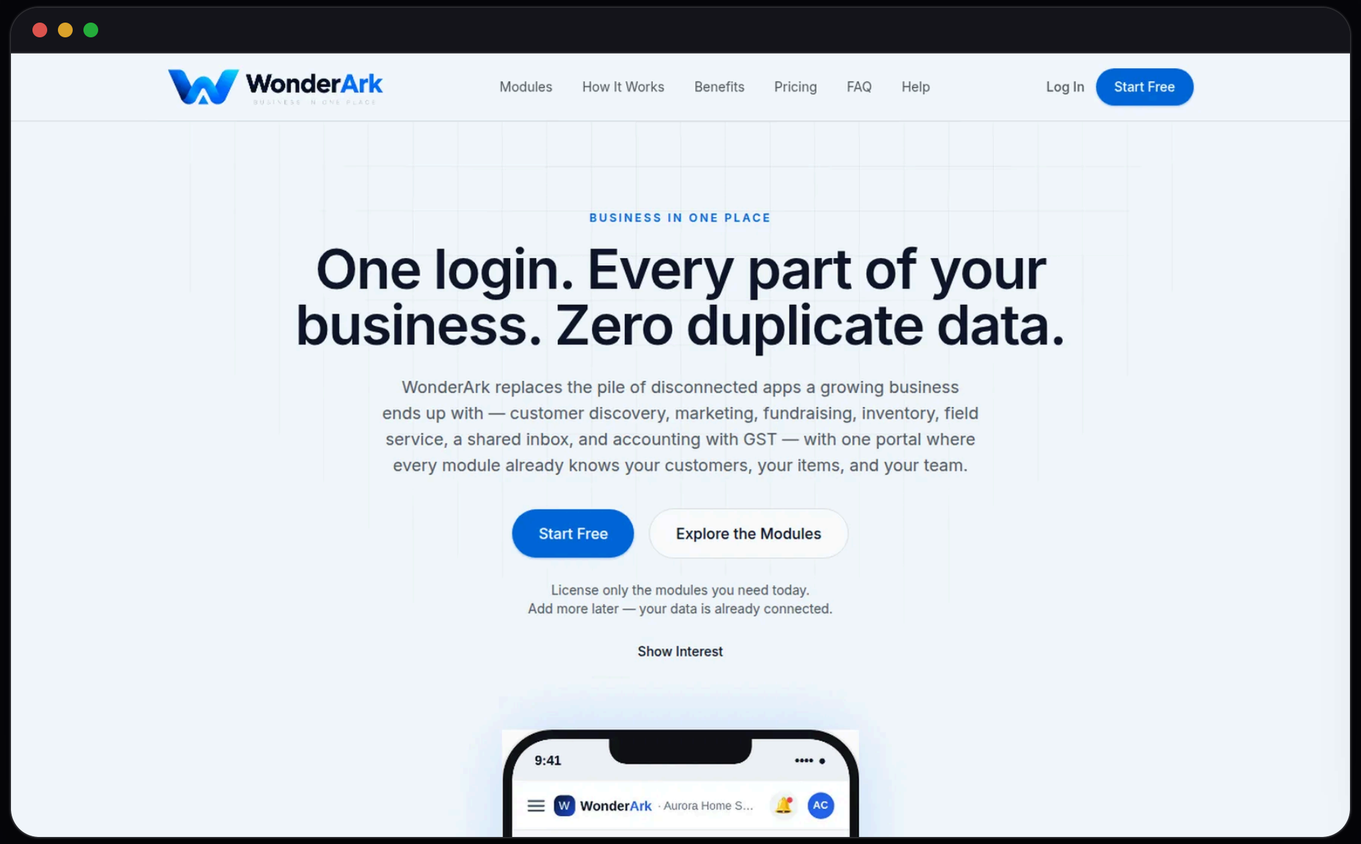

One inbox across WhatsApp and email, tied to the same customer record.

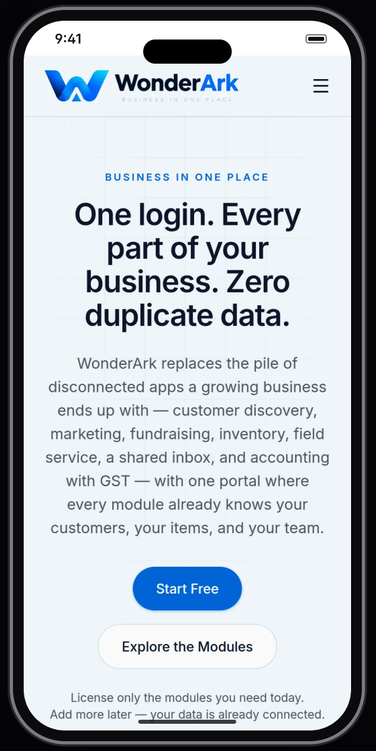

04

Finance & GST

Automatic posting, statements with drill-down, and GST from real sales data.

WonderArk, live today

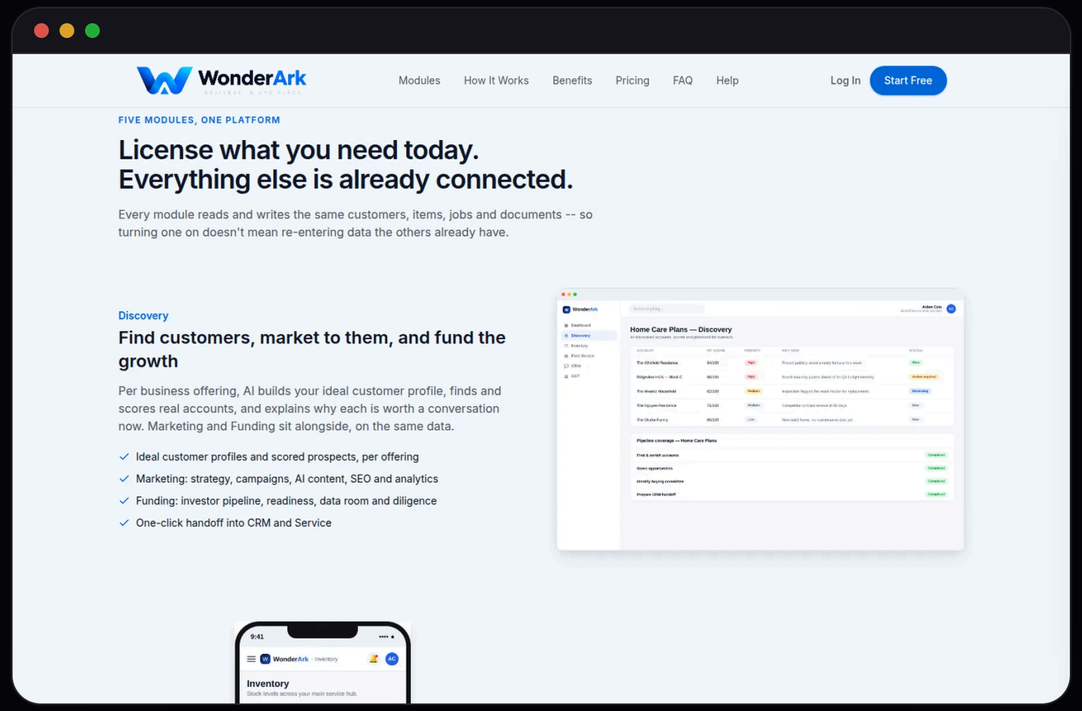

LIVE PRODUCT

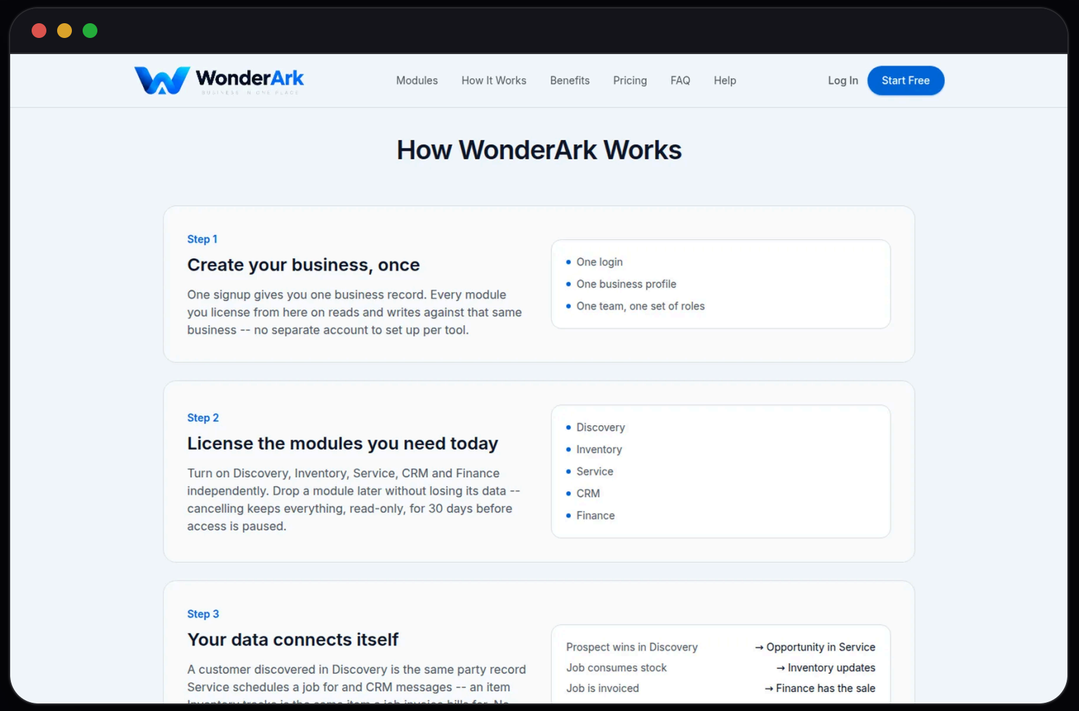

Business in one place — the new WonderArk identity

ark.wonderapps.biz

A closer look

Discovery now finds customers, markets to them and funds the growth

License what you need; add modules in place

From first touch to outcome

1

Create the business once

One signup, one login, one business record.

2

License what you need

Start with one module; add or drop later.

3

Data connects itself

A won prospect becomes a customer; a job moves stock; an invoice feeds GST.

4

Add a module in place

The next module already knows your customers and items.

The mid-market between spreadsheets and SAP.

31.1% of GDP

MSME share of India's GDP, with 48.58% of exports (January 2026 data)

MSMEs are the second-largest employer in India after agriculture, so the addressable buyer base is both large and economically central.

Source: Press Information Bureau (Government of India), MSME Day 2026 fact sheet, 2026

Government of India fact sheet, January 2026 data.

8.7 crore

Enterprises registered on Udyam Registration Portal and Udyam Assist Platform (June 2026)

Formal MSME registrations have reached 8.7 crore, a very large formalised base for a licensed multi-module business platform.

Source: Press Information Bureau (Government of India), MSME Day 2026 fact sheet, 2026

Self-declared registrations, not a count of active businesses. 1 crore = 10 million.

1.67 crore

Active GST taxpayers in India as of 30 June 2026

The GST-registered base is the natural GST-native market; it has grown from 66.5 lakh in 2017.

Source: Goods and Services Tax Network (GSTN), 2026

Net of cancellations. 1 crore = 10 million.

More on the opportunity

~83.6%

E-invoice share of GSTR-1 reported B2B invoice value, Jul 2025 - Jun 2026

E-invoicing now covers most reported invoice value, so GST-ready invoicing is becoming table stakes for growing SMBs.

Source: Goods and Services Tax Network (GSTN), 2026

System-generated GSTN data, not audited. Share by value; by count it is about 67.8%.

$1.07B

India ERP market size in 2025, forecast $2.62B by 2031 (16.08% CAGR)

ERP demand in India is driven by GST and e-invoicing compliance, with SMEs the fastest-growing segment at a 19.2% CAGR.

Source: Mordor Intelligence, 2026

Forecast; base year 2025. Other publishers define the market differently.

$6.1B

Global field service management market in 2025, forecast $13.8B by 2033 (11.0% CAGR)

Field service software is a growing standalone category, with SMEs the fastest-growing customer segment per the publisher.

Source: Grand View Research, 2026

Global, not India-only. Forecast; base year 2025, CAGR 2026–2033.

What has changed

01 E-invoicing and e-way bill mandates keep widening the set of businesses that must operate from clean, connected data.

02 AI makes prospect research and multi-module querying practical for a business with no analyst.

03 Modular licensing lets a customer start small and expand in place — the land-and-expand motion vertical SaaS lacks.

WHO BUYS

- Field-service and installation businesses
- Distributors and traders managing multi-warehouse stock
- Founder-led B2B companies building their first pipeline
- Any GST-registered business filing from real sales data

License by module. Expand in place.

Published pricing in Indian Rupees: Free, Pro at ₹2,999/month and Max at ₹9,999/month, plus AI credit packs (₹1,000 for 500 runs up to ₹6,000 for 4,000) or bring-your-own-key. Billing is built and in its production-readiness review, so Pro and Max are sold by conversation today. Licensing is enforced at every layer, so an unlicensed module is genuinely off, not merely hidden.

Free

Start with discovery

- Core discovery tools at no cost
- One login, one business
- Team members with roles and permissions

Pro

₹2,999 / month

- Every module, more usage headroom
- Up to 200 AI runs a month per Discovery offering
- Cancel a module any time: 30 days read-only, data never deleted

Max

₹9,999 / month

- Highest limits and every feature
- For teams running at scale
- Credit packs or your own AI key on top

Built and verifiable

Read from the product's own public engineering tracker and live site. Code, trackers and demos are available to serious parties on request.

STORIES COMPLETE

565 / 651

99% of in-scope work; 82 superseded or deferred stories excluded. A story counts only when code cites it

MODULES

5 on one schema

Discovery (with Marketing and Funding), Inventory, Service, CRM, Finance — independently licensable

EXPORTS

Every module

CSV and Excel across all modules and platform admin — 89 of 90 export stories done

TEAM ACCESS

39 of 39

Multi-user, multi-business roles and invitations, enforced alongside licensing

What compounds

01

One entity map

A prospect, customer and supplier are one party record; an invoice and a purchase order share one documents table.

02

Books from the same records

Statements and GST come from the same sales and stock records, so books and operations can't drift.

03

Cancel-safe by design

Cancelling never deletes data: 30 days read-only, then retained for reactivation.

What comes next

NOW

- Billing production-readiness review, then self-serve paid plans
- Global tax: VAT/GST for UAE, Saudi Arabia, Australia, NZ and Southeast Asia
- Platform administration portal (26 stories left)

NEXT

- E-invoice and e-way bill transaction lists and their exports
- Finish the offering-centric Discovery upgrade (6 stories left)
- CRM channel connectors (WhatsApp, email)

LATER

- Public API and partner integrations
- Independent deployability per module as scale demands

Seeking design customers in field service and distribution, and investors who understand vertical SaaS in India's GST-native SMB market.
