WonderJobs

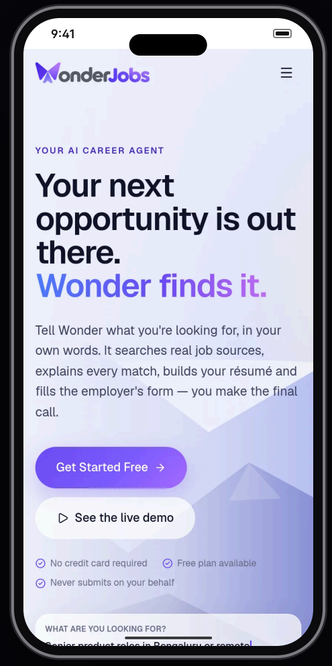

CONSUMER · CAREER AI AGENT

Your next opportunity is out there. Wonder finds it.

An AI career agent that searches real job sources, explains every match, prepares every application — and leaves the decisions to the candidate.

Investor overview · Live product · free plan · public demo

Job searching is a full-time job. It shouldn't be.

1. The same job sits on six boards; the same résumé is rewritten ten times.
2. Boards rank by recency or by who paid, never by fit.
3. Auto-apply tools submit for you and damage your standing with employers.
4. Stale and duplicate listings waste a seeker's scarcest resource: attention.

Find, decide, apply, progress — with the candidate in control.

01

Say what you want

One plain-language search across real employer boards and feeds.

02

See why

Every match explains itself, and so does every job it hides.

03

Apply in minutes

A tailored résumé in eight templates; the employer's form filled in your own browser.

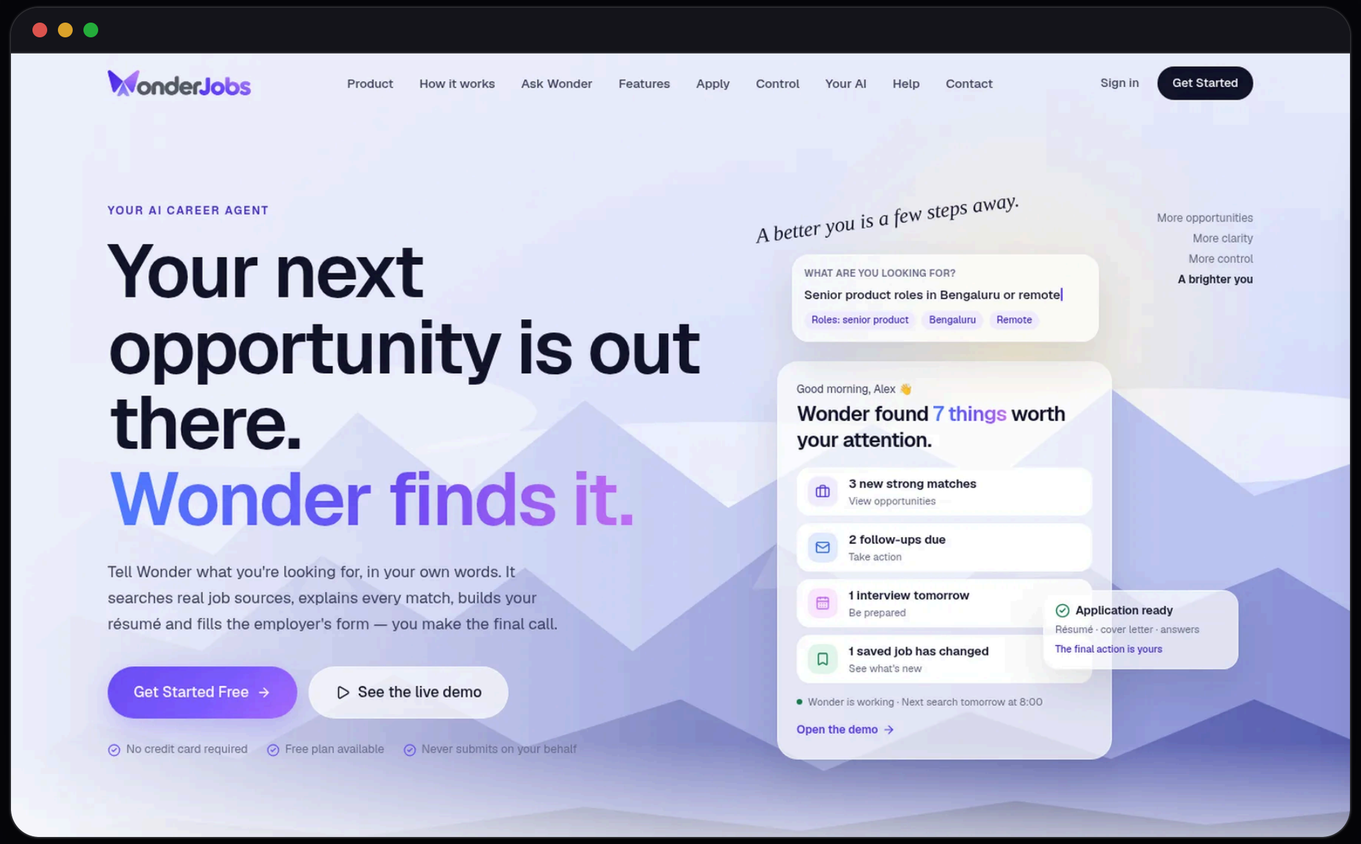

04

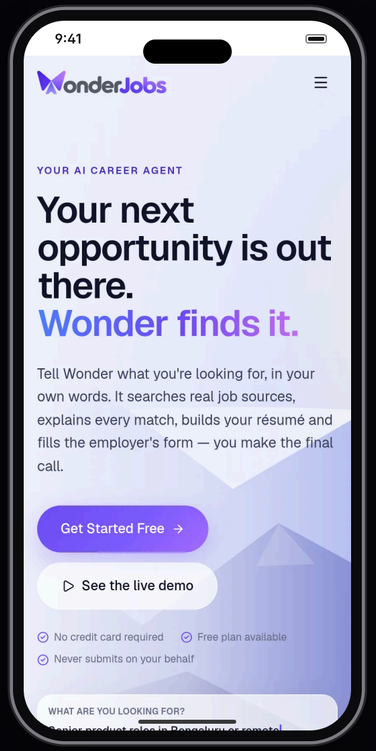

Stay in control

It never submits. The final click is always the candidate's.

IN THE PRODUCT

A closer look

Find · Decide · Apply · Progress — the whole app reorganised around outcomes

Home — what deserves your attention today

HOW IT WORKS

From first touch to outcome

1

Find

Describe the role in your own words.

2

Decide

Compare matches with the reasons behind each.

3

Apply

An Application Pack of real, labelled materials.

4

Progress

A pipeline built from real applications.

Every active job seeker, every few years.

$33.6B

Global online recruitment market size in 2025, growing to $64.9B by 2031

Mordor Intelligence sizes the online recruitment market at $33.59B in 2025, forecasting 11.62% CAGR to 2031, with Asia Pacific the fastest-growing region.

Source: Mordor Intelligence, 2026

Forecast; base year 2025, CAGR 2026–2031.

$15.2B by 2030

Forecast global AI-in-HR market in 2030 (recruitment and hiring is the largest application)

Grand View Research values AI in HR at $3.2B in 2023 and projects $15.2B by 2030, a 24.8% CAGR, driven by automated sourcing, résumé screening and scheduling.

Source: Grand View Research, 2024

Forecast; base year 2023. Covers all of HR, of which recruiting is one application.

~20%

Share of job listings with no hiring activity in a given quarter (Greenhouse data)

Applicant-tracking vendor Greenhouse found about one in five listings never produced hiring activity, which is why seekers waste applications on 'ghost' postings.

Source: SHRM (reporting Greenhouse Software data), 2024

Greenhouse data as relayed by SHRM. “No hiring activity” is not the same as a fake listing.

More on the opportunity

74%

US job seekers who personally use AI in their job search

A survey of 1,200 US job seekers found three in four already use AI, and 87% want employers to be transparent about their own AI use.

Source: Greenhouse (hiring-software vendor survey), 2025

Vendor survey of 1,200 US job seekers, self-reported.

39%

Organisations that have implemented AI in HR functions; recruiting is the top use at 27%

SHRM's 2026 research finds under 40% of employers use AI in HR, led by recruiting, so employer-side AI screening is real but still early.

Source: SHRM, 2026

SHRM research, 1,900+ HR professionals. Recruiting is the top use at 27%.

15.9%

India unemployment rate for ages 15-29, April-June 2026 (PLFS)

India's official quarterly labour survey puts youth unemployment at 15.9%, against 5.4% for all persons aged 15 and above, the largest cohort of early-career seekers.

Source: National Statistics Office, MoSPI, Government of India, 2026

Official labour-force survey, all-India. Overall rate for ages 15+ was 5.4%.

WHY NOW

What has changed

01 Structured public job feeds and company ATS boards make honest, real-data search possible without scraping walled gardens.

02 Language models draft credible, tailored materials — but only trustworthy when paired with deterministic matching and human approval.

03 BYOK lets candidates pay their own AI bill, keeping the free tier genuinely free and gross margin high.

WHO BUYS

- Knowledge workers searching remote and hybrid roles
- Career switchers who need fit explained, not assumed
- Students and early-career talent entering global markets
- Senior professionals managing a discreet, high-stakes search

Free to search. Pro for depth and automation.

The free plan is real and the demo runs without an account. Pro is the natural upgrade for scheduled runs, deeper coaching and higher limits; billing is designed but not yet connected, so today 'Upgrade' records interest. BYOK means heavy users can bring their own inference cost.

Free

Search and prepare

- Real sources, explainable matching
- Application materials and tracker
- WonderJobs AI or bring your own key
- Installable on any device

Pro

In development

- Scheduled runs with a server-side scheduler
- Deeper résumé coaching and mock interviews
- Higher usage limits
- Priority sources as they land

EXECUTION TO DATE

Built and verifiable

Read from the product's own public engineering tracker and live site. Code, trackers and demos are available to serious parties on request.

EPICS COMPLETE

11 / 15

The rest are partial, with operator steps or provider config outstanding

APPLY WITH WONDER

95 tests

Including end-to-end runs against mock Greenhouse, Lever, Ashby and generic application forms

RÉSUMÉ STUDIO

8 ATS templates

PDF and Word downloads from one structured Career Profile, covered by automated tests

LIVE JOB SOURCES

7 families

Greenhouse/Lever/Ashby boards across 20+ companies plus six aggregators, now behind JobsLake

DEFENSIBILITY

What compounds

01

Honesty as a feature

Only sources actually searched are shown, and nothing is ever submitted on a candidate's behalf.

02

A job-data layer

Opportunities de-duplicated across sources with per-field provenance and source-health monitoring.

03

Deterministic core

Matching and quality checks are rule-based and tested; the AI only drafts prose.

ROADMAP

What comes next

NOW

- JobsLake production rollout and a real-account verification pass
- Email delivery for follow-ups and thank-you notes
- Google sign-in and a custom email sender

NEXT

- Pro plan billing
- Chrome Web Store listing for Apply with Wonder
- Two-way calendar sync

LATER

- Additional regional sources
- Mock-interview AI and deeper coaching
- Platform admin for usage and key rotation

Seeking early-stage investors and distribution partners — universities, bootcamps and career services — who want candidates to have an agent of their own.
